Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	"Every year, the Global Forum undertakes two workshops whose topics are selected by the more than 55 members of the Forum. It was

decided in this first year of the Forum's existence that the workshops should lay the foundation for future work of the Forum and the topic that could best provide this base of understanding was "interprofessional education." The first workshop took place August 29-30, 2012, and the second was on November 29-30, 2012. Both workshops focused on linkages between interprofessional education (IPE) and collaborative practice. The difference between them was that Workshop 1 set the stage for defining and understanding IPE while Workshop 2 brought in speakers from around the world to provide living histories of their experience working in and between interprofessional education and interprofessional or collaborative practice"--Publisher's description.
