Sommario/riassunto	This book brings the history of Latin American philosophy to an English-speaking audience through the prominent voices of Mauricio Beuchot, Horacio Cerutti-Guldberg, María Luisa Femenías, Jorge J. E. Gracia, Oscar R. Martí, León Olivé, Carlos Pereda, and Eduardo Rabossi. They argue that Spanish is not a philosophically irrelevant language and that there are original positions to be found in the work of Latin American philosophers. Part I of the book looks at why the history of philosophy has not developed in Latin America. A range of theoretical issues are explored, each focusing on specific problems that have

hindered the development of a solid history. Part II details the complex task of writing a history of philosophy for a region still haunted by the specter of colonialism.
