'No Patents on Life!'; 9. Mr Pharma Goes to Geneva; 10. The Story So Far; 11. Would We Have Got Where We Are Today Without Patents?; Part IV: Future; 12. The Future of Patents and the Life Science Industries; Bibliography; Name Index; Subject Index; Reviews
Sommario/riassunto	This book is a highly readable and entertaining account of the co-evolution of the patent system and the life science industries since the mid-19th century. The pharmaceutical industries have their origins in advances in synthetic chemistry and in natural products research. Both approaches to drug discovery and business have shaped patent law, as have the lobbying activities of the firms involved and their supporters in the legal profession. In turn, patent law has impacted on the life science industries. Compared to the first edition, which told this story for the first time, the present edit
