World Jewry / Gabi Sheffer -- 22 Israel-Diaspora Relations:
"Transmission Driving-belts" of Transnationalism / Eliezer Ben-Rafael
-- Epilogue: One—After All. . . for the Time Being -- Index.

Sommario/riassunto

In this era of globalization, Jewish diversity is marked more than ever by transnational expansion of competing movements and local influences on specific conditions. One factor that still makes Jewish communities one is the common reference to Israel. Today, however, differentiations and discrepancies in identification and behavior generate plurality and ambiguities about Israel-Diaspora relationships. Moreover the Judeophobia now rife in Europe and beyond as well as the spread of the Palestinian cause as a civil religion make Israel the world's 'Jew among nations.' This weighs heavily on community relations - despite Israel's active presence in the diaspora. In this context, the contributions to this volume focus on Jewish peoplehood, religiosity and ethnicity, gender and generation, Israelophobia and world Jewry, and debate the perspectives that are most pertinent to confront the question: how far is the Jewish Commonwealth (Klal Yisrael) still an important code of Jewry today? This book is also available in paperback.
