Sommario/riassunto

International Political Risk Management: Looking to the Future is the third in a series of volumes based on the MIGA-Georgetown University Symposium in International Political Risk Management. Like its predecessors, this volume offers expert assessments of needs, trends, and challenges in the international political risk insurance industry. These assessments come from a dozen senior practitioners from the investor, financial, insurance, broker, and analytical communities. The volume leads off by examining the lessons that can be learned from recent investment losses, insurance claims, and arbi
