Feenstra -- Index Of Sources Not Mentioned In The List / R. Feenstra -- General Index / R. Feenstra.

Sommario/riassunto

The quadricentenary of Hugo Grotius' *Mare liberum* (1609-2009) offered the opportunity to publish a reliable critical edition – combined with a revised English translation – of Grotius' first publication in the field of international law. Starting from a comparison with the autographic manuscript, Robert Feenstra undertook a verification of the text of the first and only authorised edition – in particular of the numerous marginal references – resulting in many corrections and further annotations. In his 'Editor's Introduction', he explains the history of the later editions of the Latin text and the translations of *Mare liberum*. Jeroen Vervliet's 'General Introduction' aims at providing a better understanding of the circumstances in which Hugo Grotius wrote this work; it elucidates the legal argument used by Grotius, and the reaction of his contemporary opponents.
