

1. Record Nr.	UNINA9910821065903321
Autore	Horvath Zoltan
Titolo	Trends in Functional Programming 10
Pubbl/distr/stampa	Bristol, : Intellect, 2010
ISBN	1-283-60999-1 9786613922441 1-84150-442-4
Edizione	[1st ed.]
Descrizione fisica	1 online resource (189 p.)
Collana	Trends in Functional Programming Series ; ; v.v. 10
Altri autori (Persone)	ZsokViktoria
Disciplina	005.114
Soggetti	Functional programming (Computer science) -- Congresses Engineering & Applied Sciences Computer Science
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Front Cover; Preliminary Pages; Contents; Graph-based Communication in Eden; Compiling Concurrency Correctly: Cutting Out the Middle Man; Towards compiling SAC to CUDA; Low Pain vs No Pain Multi-core Haskell; An Operational Semantics for Distributed Lazy Evaluation; On Graph Rewriting, Reduction and Evaluation; A Reflection-based Proof Tactic for Lattices in Coq; Generic Programming for Domain Reasoners; Haskell Module Tools for Liberating Type Class Design; Signals, Not Generators!; Braincurry: A Domain-Specific Language for Integrative Neuroscience; Author Index; Back Cover
Sommario/riassunto	Volume 10 in the Trends in Functional Programming (TFP) series presents some of the latest research results in the implementation of functional programming languages and the practice of functional programming. It contains a peer-reviewed selection of the best articles presented at the 2009 Tenth Symposium on Trends in Functional Programming held in Komarno, Slovakia. TFP 2009 was co-located with the Third Central European Functional Programming School (CEFP 2009) and organized by the Department of Programming Languages and Compilers, Faculty of Informatics, Eotvos Lorand University, Budapest a
