

1. Record Nr.	UNINA9910821119203321
Autore	Monaco Andre
Titolo	Marine ecosystems : diversity and functions // Andre Monaco, Patrick Prouzet
Pubbl/distr/stampa	London, England ; ; Hoboken, New Jersey : , : ISTE : , : Wiley, , 2015 ©2015
ISBN	1-119-23246-5 1-119-23245-7 1-119-11621-X
Descrizione fisica	1 online resource (269 p.)
Disciplina	574.52636
Soggetti	Marine ecology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	<p>""Table of Contents""; ""Title""; ""Copyright""; ""Foreword""; ""1: Marine Biosphere, Carbonate Systems and the Carbon Cycle""; ""1.1. Introduction""; ""1.2. Marine organisms and carbon""; ""1.3. Variability in the production of organic matter""; ""1.4. From the biosphere to the atmosphere to climate""; ""1.5. Carbonate production""; ""1.6. The coupling of carbonaceous and organic productions""; ""1.7. Modification of equilibria and consequences on marine life""; ""1.8. Conclusion""; ""1.9. Bibliography""</p> <p>""2: Biodiversity of Phytoplankton: Responses to Environmental Changes in Coastal Zones""""2.1. Introduction""; ""2.2. Phytoplankton ecology""; ""2.3. Phytoplankton responses to anthropogenic pressures""; ""2.4. Observation systems for the identification of phytoplankton""; ""2.5. Conclusion""; ""2.6. Bibliography""; ""3: Marine Seagrasses (Magnoliophyta) in the Intertropical Zone""; ""3.1. From plant to habitat""; ""3.2. Role of seagrass beds in the coastal environment""; ""3.3. Functioning of seagrass beds""; ""3.4. Challenges in the conservation of seagrass beds""</p> <p>""3.5. Pressures on and threats to seagrasses""""3.6. Restoration of seagrass beds""; ""3.7. The functional role of seagrasses in the lagoon ecosystem""; ""3.8. Conclusion""; ""3.9. Bibliography""; ""4: Biocomplexity of Coral Ecosystems: Diversity in All its States""; ""4.1.</p>
