experience: spatialising the individual in the mass; Eleven: Cutting
experience: intersecting durations in making lives matter; Twelve:
Unlimiting experience: dynamics of remembering and forgetting;
References; Index

Sommario/riassunto

The authors present an insight into the social psychology of experience drawing upon a few classic works to help develop their argument. The significance of their ideas for developing a contemporary psychology of experience is illustrated with material from studies focused on setting at home and at work.
