Nota di bibliografia	Includes bibliographical references (pages 167-175) and index.
Nota di contenuto	Introduction: The fat planet -- Fat people and fat populations -- The motorization of movement -- Food and the petro-nutritional complex -- Money -- Contract and converge -- The era of the bicycle -- Reclaiming our neighbourhoods -- Reclaim your home -- A better world.
Sommario/riassunto	The Energy Glut shows how the heating of our planet and the bulging of our waistlines are manifestations of the same global malaise. Ian Roberts presents a frightening vision of humanity besieged by a food industry pushing a surfeit of energy-dense food, while the rise of the

car means we have fewer opportunities to move our bodies than ever before.
