Sommario/riassunto	HauptbeschreibungA couple of dramatic scenes were seen in China and also after getting more information about the problems of the health care system of China the decision were created to learn more about the health care system of China for being able to present solutions for the general problems. Trough the change in 1978 from communism to the implementation of the economic reforms by Deng Xiaoping the media all around the world is talking about the incredible increasing of China. The changes to a liberalized trade principle waged to decreased poverty levels and determine China on t
