ISBN	1-4742-0059-1 1-281-08266-X 9786611082666 1-84731-357-4
Edizione	[1st ed.]
Descrizione fisica	1 online resource (242 p.)
Disciplina	344.4104194
Soggetti	Human body - Law and legislation - Australia Human body - Law and legislation - Great Britain Human body - Law and legislation - United States Personality (Law) - Australia Personality (Law) - Great Britain Personality (Law) - United States Property - Australia Property - Great Britain Property - United States Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Chapter 1. Introduction -- Chapter 2. Dead Body -- Chapter 3. Living Body -- Chapter 4. Human Tissue Act 2004 -- Chapter 5. Property Rights -- Chapter 6. Creation and Allocation of Property Rights -- Chapter 7. Non-proprietary Interests -- Chapter 8. Conclusion.
Sommario/riassunto	"Do you own your body? Advances in science and the development of genetic databases have added an aura of modern controversy to this long-standing and, as yet, unresolved problem. In particular, English law governing separated human tissue (including organs, DNA and cell-lines) is unsatisfactory. Despite the enactment of the Human Tissue Act 2004 UK, it remains uncertain what property rights living persons can

claim over tissue separated from their bodies. The development of clear legal principles is necessary to protect the rights of individuals while also enabling the efficient use of such materials in medical research. Part I of *Law and the Human Body* traces the evolution of English, Australian, United States and Canadian law in relation to human tissue separated from living persons and dead bodies. This includes a comprehensive examination of the Human Tissue Act 2004 UK as well as prominent judicial decisions, including *Re Organ Retention Group Litigation* [2005] QB 506, *Colavito v New York Organ Donor Network Inc* 8 NY 3d 43 (NY CA 2006) and *Washington University v Catalona* 490 F 3d 667 (8th Cir 2007). Analysis demonstrates that, although property rights and non-proprietary interests in separated human tissue are recognised in limited circumstances, no principled basis has been accepted either at common law or by statute for the recognition of these rights and interests. Part II of this book develops and defends a principled basis in English law for the creation and legal recognition of property rights and non-proprietary interests in separated human tissue. Significantly, the analysis and principles presented in *Law and the Human Body* have application across common law and civil law jurisdictions worldwide."--Bloomsbury Publishing.

 Advocating for a Point of View

## Sommario/riassunto

"Bridge the gap between leadership development and career preparation! This guidebook gives leadership educators the tools they need to help students develop the competencies necessary for their chosen careers and required by their academic programs. It also offers a way to understand and demonstrate the effectiveness of leadership programs. Organized into chapters each focused on one of 60 leadership competencies common across 522 academic degree programs accredited by 97 agencies, each chapter covers: a definition and description of the competency through the lens of each of four dimensions: knowledge, value, ability, and behavior; a scenario related to college student leadership that showcases the competency in action; related competencies to help readers understand how developing one competency may also intentionally or unintentionally develop another; a correlation of the competency to the Relational Leadership Model, the Social Change Model, the Five Practices of Exemplary Leadership, and/or Emotionally Intelligent Leadership; and tangible curricular ideas to use with students to help them develop each dimension of the competency."--
