

1. Record Nr.	UNINA9910821344403321
Titolo	Cognitive impairment in schizophrenia : characteristics, assessment, and treatment // edited by Philip D. Harvey, PhD [[electronic resource]]
Pubbl/distr/stampa	Cambridge : , : Cambridge University Press, , 2013
ISBN	1-107-23489-1 1-139-61211-5 1-139-62141-6 1-283-94318-2 1-139-62513-6 1-139-60866-5 1-139-61583-1 1-139-00387-9
Descrizione fisica	1 online resource (xv, 324 pages) : digital, PDF file(s)
Disciplina	616.89/8
Soggetti	Schizophrenia Cognition disorders - Treatment
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cognition in schizophrenia as a central illness feature / R. Walter Heinrichs ... [et al.] -- The multi-faceted, "global" cognitive impairment profile in schizophrenia / Dwight Dickinson, Jonathan Schaefer, and Daniel R. Weinberger -- Comparative impairments across schizophrenia and bipolar disorder / Christopher R. Bowie, Katherine Holshausen, and Maya Gupta -- Cognitive impairment and symptom dimensions in psychosis / Manuela Russo, Robin Murray, and Abraham Reichenberg -- Neurocognition and functional outcome in schizophrenia : filling in the gaps / Michael F. Green ... [et al.] -- Cognition and work functioning in schizophrenia / Susan McGurk and Kim Mueser -- Cognition and functional status in adult and older patients with schizophrenia / Sara J. Czaja and David Loewenstein -- Social cognition and its relationship to neurocognition / Amy E. Pinkham -- Cognitive functioning and awareness of illness in schizophrenia : a review and meta-analysis / Akshay Nair, Andre

Aleman, and Anthony S. David -- Genetic influences on cognition in schizophrenia / Katherine E. Burdick, Benjamin Glicksberg, and Gary Donohoe -- Neurobiological determinants of cognition / Daniel C. Javitt -- Translational cognitive neuroscience of schizophrenia : bridging neurocognitive and computational approaches towards understanding cognitive deficits / Alan Anticevic, John H. Krystal, and Deanna M. Barch -- Assessment of cognition in schizophrenia treatment studies / Richard Keefe -- Performance-based measures of functioning in schizophrenia / Colin A. Depp ... [et al.] -- Pharmacological approaches to cognitive enhancement / Philip D. Harvey -- Computerized cognitive training in schizophrenia : current knowledge and future directions / Melissa Fisher ... [et al.].

Sommario/riassunto

Although the precise mechanisms and pathways of schizophrenia remain something of a mystery, there is little dispute that cognitive deficits present as some of the clearest and most debilitating symptoms of the disease. This book describes the characteristics of cognitive deficits in schizophrenia, functional implications, the course of impairments, the genetic and biological contributions and reviews management options, including neuropsychological, psychological and pharmacological techniques. Chapters are written by leading experts in the field, in an accessible and highly informative style, ensuring the content is clinically relevant. State-of-the-art information about new developments in the treatment of related features of the illness, such as disability, is provided. The wide ranging focus of this volume will appeal to clinicians and academic researchers working with patients impaired by severe mental illness.
