Politics against the Reformation: Successes, Limits, Perspectives --
Conclusion.

Sommario/riassunto

In his portrait of Duke George of Saxony (1471–1539) Christoph Volkmar offers a fresh perspective on the early Reformation in Germany. Long before the Council of Trent, this book traces the origins of Catholic Reform to the very neighborhood of Wittenberg. The Dresden duke, cousin of Frederick the Wise, was one of Luther's most prominent opponents. Not only did he fight the Reformation, he also promoted ideas for renewal of the church. Based on thousands of archival records, many of them considered for the first time, Christoph Volkmar is mapping the church politics of a German prince who used the power of the territorial state to boost Catholic Reform, marking a third way apart from both Luther and Trent. This book was originally published in German as *Reform statt Reformation. Die Kirchenpolitik Herzog Georgs von Sachsen, 1488-1525* .
