

1. Record Nr.	UNINA9910821561703321
Autore	Sidorkin A. S
Titolo	Domain structure in ferroelectrics and related materials [[electronic resource] /] / A.S. Sidorkin
Pubbl/distr/stampa	Cambridge, UK, : Cambridge University Press, 2006
ISBN	1-280-73877-4 9786610738779 1-904602-79-7 1-4294-1317-4
Descrizione fisica	xil, 235 p
Disciplina	537/.2448
Soggetti	Domain structure Ferroelectric crystals
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Intro -- Contents -- Introduction -- Chapter 1 Formation of a domain structure as a result of the loss of stability of the crystalline lattice in ferroelectric and ferroelastic crystals of finite dimensions -- Chapter 2 Structure of domain and interphase boundaries in defect- free ferroelectrics and ferroelastics -- Chapter 3 Discussion of the microscopic structure of the domain boundaries in ferroelectrics -- Chapter 4 Interaction of domain boundaries with crystalline lattice defects -- Chapter 5 Structure of domain boundaries in real ferroactive materials -- Chapter 6 Mobility of domain boundaries in crystals with different barrier height in a lattice potential relief -- Chapter 7 Natural and forced dynamics of boundaries in crystals of ferroelectrics and ferroelastics -- Index.
