	Disciplina	621.9/88
	Soggetti	Three-dimensional printing services in libraries Three-dimensional printing
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Description based upon print version of record.
	Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
	Nota di contenuto	3D printing and its applications in libraries -- 3D printing and printers -- Before you can print : getting a model -- What makes a good printable model? -- Estimating expenses and assessing your service -- Developing your 3D printing services -- Policy development -- Workflow -- Preparation and staff training -- Dealing with difficulties -- Outreach and marketing -- Looking ahead.
	Sommario/riassunto	Planning and implementing a 3D printing service in a library may seem like a daunting task. Based upon the authors' experience as early adopters of 3D technology and running a successful 3D printing service at a large academic library, this guide provides the steps to follow when launching a service in any type of library. This book brings into one place all the guidance you need for developing and implementing a 3D printing service in any library.
