Sommario/riassunto	Western civilisation is on a path to destruction. In coming decades, economies will shrink, democracy will retreat and nations crumble. The long-term result will be grinding poverty, superstition and disease. This isn't scaremongering - it is science. In Biohistory: The Decline and Fall of the West, Dr Jim Penman, PhD, details a revolutionary new theory about why civilizations collapse. For the first time, Penman directly links human biology with the rise and fall of civilisations-a cataclysmic relationship that brought the Romans, the ancient Greeks and all other Empires to their knees. Based on
