Evaluation and Consequences; Appendix A: Thomas Aquinas on War; Appendix B: Quotations from the Duelfer Report; Appendix C: About the Author; Bibliography; Index
Sommario/riassunto	Iraq: The Moral Reckoning is an intensive application of the six classic just war theory criteria to the 2003 Iraq war decision, weighing information available at the time from a wide range of sources and concluding that the war met just one of the six, whereas a just war should meet all. It supplements the criteria with widely used ethical principles and thoroughly refutes neoconservative arguments that the

war met the criteria.
