Sommario/riassunto

This ground-breaking book brings together cutting-edge researchers who study the transformation of practice through the enhancement and transformation of expertise. This is an important moment for such a contribution because expertise is in transition - moving toward collaboration in inter-organizational fields and continuous shaping of transformations. To understand and master this transition, powerful new conceptual tools are needed and are provided here. The theoretical framework which has shaped these studies is Cultural Historical Activity Theory (CHAT). CHAT analyses how people
