Sommario/riassunto

This book examines the online memory wars in post-Soviet states - where political conflicts take the shape of heated debates about the recent past, and especially World War II and Soviet socialism. To this day, former socialist states face the challenge of constructing national identities, producing national memories, and relating to the Soviet legacy. Their pasts are principally intertwined: changing readings of history in one country generate fierce reactions in others. In this transnational memory war, digital media form a pivotal discursive space - one that provides speakers with
