

1.	Record Nr.	UNINA990001818070403321
	Autore	Northridge, Simon P.
	Titolo	Etude des interactions entre les mammifères marins et les pecheries au niveau mondial / Simon P. Northridge ; FAO.
	Pubbl/distr/stampa	Roma, : FAO, 1951
	Descrizione fisica	VII, 216 p. ; 30 cm
	Collana	FAO document technique sur les pêches ; 251
	Disciplina	639.2
	Locazione	FAGBC
	Collocazione	60 COLL. FAO 05/251
	Lingua di pubblicazione	Francese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
2.	Record Nr.	UNINA9910821995303321
	Autore	Yagola A. G.
	Titolo	Inverse problems of vibrational spectroscopy // A.G. Yagola [and three others]
	Pubbl/distr/stampa	Utrecht, the Netherlands : , : VSP, , 1999
	ISBN	3-11-094326-3
	Edizione	[Reprint 2014]
	Descrizione fisica	1 online resource (307 pages)
	Collana	Inverse and ill-posed problems series
	Soggetti	Vibrational spectra Spectrum analysis Raman spectroscopy Infrared spectroscopy Inverse problems (Differential equations)
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Bibliographic Level Mode of Issuance: Monograph

Nota di bibliografia

Includes bibliographical references.

Nota di contenuto

Frontmatter -- Contents -- Preface -- Introduction -- Chapter 1. Physical model of molecular vibrations -- Chapter 2. Full statement of the vibrational problem -- Chapter 3. Consideration of the mathematical model for molecular vibration analysis. Direct and inverse problems -- Chapter 4. Vibrational problem in internal coordinates. Use of the redundant coordinate system -- Chapter 5. Vibrational problem in symmetry coordinates -- Chapter 6. Ill-posed problems and the regularization method. Regularizing algorithms for constructing force fields of polyatomic molecules on the base of experimental data -- Chapter 7. Numerical methods -- Chapter 8. Analysis of band intensities in vibrational spectra of polyatomic molecules -- Chapter 9. Numerical implementation of algorithms for solving problems of vibrational spectroscopy -- Chapter 10. Examples of molecular force field calculations on the basis of experimental data -- Chapter 11. Joint treatment of ab initio and experimental data in molecular force field calculations with Tikhonov's method of regularization -- Appendix . Systems of units used in vibrational spectroscopy -- Bibliography
