

1. Record Nr.	UNINA9910822028303321
Autore	Kos Jaroslav
Titolo	Survey of topographical anatomy / / Jaroslav Kos, Jiri Hert, and Jaroslava Hladikova ; revised and updated by Josef Stingl, David Kachlik, and Vladimir Musil
Pubbl/distr/stampa	Prague, Czech Republic : , : Karolinum, , 2014 ©2014
ISBN	80-246-2837-6
Edizione	[First English, revised, and updated edition.]
Descrizione fisica	1 online resource (149 p.)
Disciplina	611
Soggetti	Anatomy, Surgical and topographical
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Cover; Contents; Preface; Introduction to the first Czech edition (1964); Topographical anatomy of the head; I. The Cerebral Part of the Head; Topography of the Scalp; Blood supply and innervation of the scalp; Temporal region; The projections described by Kroenlein; Projection of the lateral ventricles; Projection of dural venous sinuses; Internal surface of cranial base; The topographical relationships of the tentorial notch (incisura tentorii) ; External surface of cranial base; Skull architecture demonstrating weakened and strengthened regions; Infratemporal fossa; Pterygopalatine fossa Retrostyloid space(-)Retropharyngeal space; II. The Facial Part of the Head; Orbital region; Contents of the orbit; Nasal region; Oral region; Oral vestibule; Oral cavity proper; Floor of the oral cavity ; Mental region; Buccal and infratemporal region; Zygomatic region; Parotid region; Topographical anatomy of the neck; Submental triangle; Submandibular triangle; Carotid triangle; Hyoid region(-); Anterior cervical region; Sternocleidomastoid region; Scalenovertebral triangle(-); Lateral cervical region; Omoclavicular triangle; Omotrapezoid triangle; Topographical anatomy of the thorax Structure of the thoracic wall Presternal region; Pectoral region; Contents of the thorax; Pleural cavity; Projection of pleura on the thoracic wall; Projection of the lungs; Mediastinum; Middle inferior mediastinum; Projection of the pericardium and heart on the anterior

thoracic wall; Anterior inferior mediastinum; Superior mediastinum; Inferior posterior mediastinum; Topographical anatomy of the abdomen; Orientation lines and regions of the abdomen; Umbilical region; Inguinal region; Inferior lumbar triangle (of Petit); Superior lumbar triangle (of Grynfeltt)

Abdominal cavity (cavitas abdominis) Peritoneal cavity; Projection of the vertebral column on the anterior abdominal wall; Supramesocolic part of the peritoneal cavity(-); Inframesocolic part of peritoneal cavity; Retroperitoneal space; Topographical anatomy of the pelvis; Perineal region; Anal region; Urogenital region; Pelvic cavity; Subperitoneal space of the pelvis; Topographical anatomy of the back; Topographical anatomy of the upper extremity; Scapular region; Infraclavicular region (-); Deltoid region; Axillary region (axillary fossa, axilla); Brachial region; Cubital region

a) Anterior cubital region b) Posterior cubital region; Antebrachial region; a) Anterior antebrachial region; b) Posterior antebrachial region; Carpal region; a) Anterior carpal region; b) Posterior carpal region; Palm; Dorsum of hand; Fingers of hand; Topographical anatomy of the lower extremity; Gluteal region; Projection of the suprapiriform and infrapiriform foramen(-); Position of the hip joint; Femoral triangle; Femoral region; a) Anterior femoral region; b) Posterior femoral region; Knee region; a) Anterior region of knee; b) Posterior region of knee; Leg region

a) Anterior region of leg
