Autore	Banerji Subir <1961->
Titolo	Practical procedures in the management of tooth wear / / Subir Banerji [and three others]
Pubbl/distr/stampa	Hoboken, New Jersey : , : Wiley-Blackwell, , 2020
ISBN	9781119389965 1-119-38992-5 1-119-38996-8 1-119-38984-4
Descrizione fisica	1 online resource (248 pages)
Disciplina	617.634
Soggetti	Teeth - Abrasion - therapy Teeth - Abrasion - Diagnosis Teeth - Abrasion - Treatment
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Introduction & The Prevalence of Tooth Wear -- The Aetiology and Presentation of Tooth Wear -- The Clinical Assessment and Diagnosis of the Wear Patient -- The Diagnosis of Tooth Wear, Including the Use of Common Clinical Indices -- Clinical Occlusion in Relation to Tooth Wear -- Management of Tooth Wear : Monitoring and Prevention Strategies -- The Role of Occlusal Splints for Patients with Tooth Wear -- Treatment Planning and the Application of Diagnostic Techniques -- Concepts in the Restoration of the Worn Dentition -- Dental Materials : an Overview of Material Selection for the Management of TW -- The Principles and Clinical Management of Localized Anterior Tooth Wear -- The Principles and Clinical Management of Localized Posterior Tooth Wear -- The Principles and Clinical Management of Generalized Tooth Wear -- The Prognosis of the Restored Worn Dentition : Contingency Planning, the Importance of Maintenance and Recall.
Sommario/riassunto	"New to the Practical Procedures in... series, Practical Procedures in the Management of Tooth Wear demonstrates a wide range of up to date clinical techniques in the practical management of tooth wear. Presented in an accessible and user-friendly format, the book

summarises the key points of each procedure, complete with clinical photographs. Chapters outline the principles and procedures for each technique, offer clinical tips and advice, and include full references. Topics include patient assessment and diagnosis, treatment planning for localised and generalised tooth wear, the partially dentate patient, tooth wear monitoring, management, and maintenance. Created by an internationally-recognised team with both clinical and academic expertise, this valuable resource: Presents comprehensive, evidence-based coverage of the management of tooth wear, Examines the epidemiology and etiology of tooth wear, covers practical aspects such as record taking, aesthetic evaluation, prevention, clinical occlusion and active monitoring, includes access to high quality instructional videos to further supplement the text. Practical Procedures in the Management of Tooth Wear is a unique source of information for general dental practitioners, senior undergraduate dental students, and postgraduates preparing for higher qualifications and training"--
