Sommario/riassunto

The Cash Dividend: The Rise of Cash Transfer Programs in Sub-Saharan Africa assimilates results of a thorough review of the recent use of cash transfer programs in Sub-Saharan Africa. Drawing from sources including program documentation, policy papers, peer-reviewed publications, and interviews, it paints a picture of the evolution and current state of cash transfers, which include unconditional and conditional cash transfers and emergency- and development-focused transfers. It presents analysis from data collected and describes broad trends in design features and implementation, including obj
