

1. Record Nr.	UNISA990006009520203316
Autore	FIANCHINO, Corrado
Titolo	Caratteri tecnologici della ricostruzione settecentesca nella Sicilia sud-orientale / Corrado Fianchino
Pubbl/distr/stampa	Catania : I.D.A.U., 1983
Descrizione fisica	106 p. : ill. ; 29 cm
Collana	Documenti dell'Istituto dipartimentale di architettura e urbanistica dell'Università di Catania ; 7
Disciplina	720.9458
Soggetti	Architettura - Restauro - Sicilia - Sec. 17
Collocazione	720.945 FIA
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr.	UNINA9910822376303321
Autore	Moltz James Clay
Titolo	Crowded orbits : conflict and cooperation in space // James Clay Moltz
Pubbl/distr/stampa	New York ; ; Chichester, England : , : Columbia University Press, , 2014 ©2014
ISBN	0-231-52817-5
Descrizione fisica	1 online resource (241 p.)
Disciplina	629.4/1
Soggetti	Planets - Exploration Astronautics and state Astronautics - International cooperation Space law Space security Outer space Exploration
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Front matter -- Contents -- Preface -- Introduction -- 1. Getting Into Orbit -- 2. The Politics of the Space Age -- 3. Civil Space: Science and Exploration -- 4. Commercial Space Developments -- 5. Military Space: Expanded Uses and New Risks -- 6. Space Diplomacy -- 7. Trends and Future Options -- Notes -- Index
Sommario/riassunto	Space has become increasingly crowded since the end of the Cold War, with new countries, companies, and even private citizens operating satellites and becoming spacefarers. This book offers general readers a valuable primer on space policy from an international perspective. It examines the competing themes of space competition and cooperation while providing readers with an understanding of the basics of space technology, diplomacy, commerce, science, and military applications. The recent expansion of human space activity poses new challenges to existing treaties and other governance tools for space, increasing the likelihood of conflict over a diminishing pool of beneficial locations and resources close to Earth. Drawing on more than twenty years of experience in international space policy debates, James Clay Moltz examines possible avenues for cooperation among the growing pool of

space actors, considering their shared interests in space traffic management, orbital debris control, division of the radio frequency spectrum, and the prevention of military conflict. Moltz concludes with policy recommendations for enhanced international collaboration in space situational awareness, scientific exploration, and restraining harmful military activities.

3. Record Nr.	UNINA9910156327403321
Autore	Zoccali C
Titolo	Clinical Hypertension in Nephrology : : International Meeting, Lido degli Aranci, Calabria, September 1995 // editor, C. Zoccali
Pubbl/distr/stampa	Basel : , : S. Karger, , 1996
ISBN	9783318033830 3318033839
Edizione	[1st ed.]
Descrizione fisica	1 online resource (X + 216 pages) : : 35 figures, 32 tables
Collana	Contributions to Nephrology, , 1662-2782 ; ; Vol.119
Altri autori (Persone)	ZoccaliCarmine <1947->
Disciplina	616.6/1
Soggetti	Nephrology Internal Medicine Cardiovascular System
Lingua di pubblicazione	Inglese

**Sommario/riassunto**

This volume takes a fresh look at a range of hypertension topics that are of primary interest to the clinical nephrologist. The book includes balanced reviews on the clinical physiology of endothelin and nitric oxide and the role of these substances in primary and secondary hypertension. Some still unsolved problems in the diagnosis and treatment of renovascular hypertension and renal ischemia are reexamined in light of the latest results from ongoing studies. The problem of 'renal risk' in essential hypertension is addressed mainly in terms of early prediction and the importance of microalbuminuria and glomerular hyperfiltration is thoroughly discussed. Finally, the increased cardiovascular risk and hemodynamic instability in patients undergoing dialysis are reevaluated on the basis of the most recent studies.
