Sommario/riassunto	A classified bibliographic resource for tracing the history of Jewish translation activity from the Middle Ages to the present day, providing the researcher with over a thousand entries devoted solely to the Jewish role in the east-to-west transmission of Greek and Arab learning and science into Latin or Hebrew. Other major sections extend the coverage to modern times, taking special note of the absorption of European literature into the Jewish cultural orbit via Hebrew, Yiddish, or Judezmo

translations, for instance, or the translation and reception of Jewish literature written in Jewish languages into other languages such as Arabic, English, French, German, or Russian. This polyglot bibliography, the first of its kind, contains over 2,600 entries, is enhanced by a vast number of additional bibliographic notes leading to reviews and related resources, and is accompanied by both an author and a subject index.
