

1. Record Nr.	UNINA9910822425603321
Autore	Migeon Barbara R
Titolo	Females are mosaics : X inactivation and sex differences in disease / / Barbara R. Migeon
Pubbl/distr/stampa	Oxford : , : Oxford University Press, , [2014] ©2014
ISBN	0-19-934366-7 0-19-992754-5
Edizione	[Second edition.]
Descrizione fisica	1 online resource (328 p.)
Disciplina	616/.042
Soggetti	Mosaicism X chromosome - Abnormalities Genetic disorders Sex factors in disease
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Sex differences in disease -- Evolution of the human sex chromosomes and a portrait of the human X -- X chromosome dosage compensation : an overview -- The discovery of X chromosome inactivation -- Experimental models for X inactivation studies -- Theme 1 : the initial step : creating the active and inactive X -- Theme 2 : subsequent steps : spreading and maintaining inactivation -- Variations 1 : evolution of the X inactivation center -- Variations 2 : stability of the inactive X -- Variations 3 : choice of active X -- The single active X -- Mosaicism -- Epimutations, chromatin disorders and sex differences in phenotype -- Determinants of female phenotypes.
Sommario/riassunto	Women can be described as genetic mosaics because they have two distinctly different types of cells throughout their bodies. Unlike males, who have one X chromosome, females have two X chromosomes in every cell. Much has been written about the Y chromosome and its role in inducing maleness. This is the only book about the X chromosome as a key to female development and the role of X-related factors in the etiology of sex differences in human disease. This new edition reflects research advances from the six years since the widely praised first

edition. New advances include knowledge of species

2. Record Nr.	UNINA9910337803503321
Autore	Spencer Andrew
Titolo	Travel and Tourism in the Caribbean : Challenges and Opportunities for Small Island Developing States // by Andrew Spencer
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Palgrave Macmillan, , 2019

Edizione	[1st ed. 2019.]
Descrizione fisica	1 online resource (132 pages)
Disciplina	338.47917290452
Soggetti	Tourism Management International economic integration Globalization Tourism Management Emerging Markets and Globalization
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	1. Synopsis of the Tourism Industry Within the Caribbean -- 2. Climate Change and the Sustainable Development of Tourism Within the Caribbean -- 3. Tourism and Economic Realities in the Caribbean -- 4. Caribbean Tourism Public Perceptions and Social Realities -- 5. ICT and Caribbean Tourism -- 6. Concluding Remarks: The Future of Caribbean Tourism.
Sommario/riassunto	This book explores the distinct nuisances and obstacles that are brought on by the tourism and travel industry within Caribbean small island developing countries (SIDS). The author explores best practices and measures that can be used to overcome or alleviate the hardship faced by the industry by giving voice to the nations that are often overshadowed or restrained by their developed counterparts. This book reflects on and assesses the transformative power that tourism has in

Caribbean small island developing states, while unearthing the threats that affect the longevity and economic viability of the industry in general. It is an important and overdue text focusing on this unique group of islands and will inform students and researchers on the struggles and opportunities they face. .
