Intercultural Language Learning
Contextualizing Assessment and Language Learning

Sommario/riassunto

This wide-ranging survey of issues in intercultural language teaching and learning covers everything from core concepts to program evaluation, and advocates a fluid, responsive approach to teaching language that reflects its central role in fostering intercultural understanding. Includes coverage of theoretical issues defining language, culture, and communication, as well as practice-driven issues such as classroom interactions, technologies, programs, and language assessmentExamines systematically the components of language teaching: language itself, meaning, cul
