**Sommario/riassunto**

Homofiles: Theory, Sexuality, and Graduate Studies, edited by Jes Battis, collects the work of gay, lesbian, and transgender graduate students who are pursuing studies across the humanities. The contributors' essays address the various relationships between sexuality and scholarship within their respective programs, and present arguments on topics ranging from queer literature to police brutality. This is the first anthology to specifically explore the role of queer and transgender intellectuals-in-training within the academy, and the contributors both analyze and challenge the structures of ac

#### Sommario/riassunto

This new collection covers a wide range of cutting-edge and timely questions in contemporary philosophy of religion from a rich variety of backgrounds and perspectives. The essays in the volume deal with a range of fascinating topics in the philosophy of religion such as views of God's nature in process philosophy and theology, process views compared with traditional views (such as that found in St Thomas Aquinas), teleology and purpose in human life and in the universe, religion and evolution, the problem of evil both in human experience and in the natural world, and ethical questions concer
