Becoming Parents: Baby Making In The Age Of Assisted Procreation -- 3. Being Parents: The End Of Oedipus And The Expansion Of Intimacy -- 4. Undoing The Gender Division Of Labor -- 5. Truth And Reconciliation: Families Of Origin Come Around And Come Out -- 6. Becoming Familiar In The Community Of Strangers -- 7. The Structure Of Donor-Extended Kinship -- 8. The Theoretical Future Of A Conscious Feminist Kinship -- Appendix: Families By The Bay: The Study Design, Method, And Participants -- Notes -- Bibliography -- Index
Sommario/riassunto	Amidst the shrill and discordant notes struck in debates over the make-up-or breakdown-of the American family, the family keeps evolving. This book offers a close and clear-eyed look into a form this change has taken most recently, the lesbian coparent family. Based on intensive interviews and extensive firsthand observation, The Family of Woman chronicles the experience of thirty-four families headed by

lesbian mothers whose children were conceived by means of donor insemination. With its intimate perspective on the interior dynamics of these families and its penetrating view of their public lives, the book provides rare insight into the workings of emerging family forms and their significance for our understanding of "family"-and our culture itself.
