Conclusion: Class Alliances and Transition to Mass Politics; Notes; Bibliography; Index

This work provides a sweeping historical analysis of the political development of Western Europe in the late nineteenth and early

Sommario/riassunto

twentieth century. Arguing that the evolution of most Western European nations into liberal democracies, social democracies, or fascist regimes was attributable to a discrete set of social class alliances, the author explores the origins and outcomes of the political development in the individual nations. In Britain, France, and Switzerland, countries with a unified middle class, liberal forces established political hegemony before World War I.
