

1. Record Nr.	UNINA9910822669903321
Titolo	Desalination technology : health and environmental impacts // editor, Joseph Cotruvo
Pubbl/distr/stampa	Boca Raton : , : Taylor & Francis, , 2010
ISBN	0-429-10444-8 1-4398-2893-8
Descrizione fisica	1 online resource (204 p.)
Altri autori (Persone)	CotruvoJoseph A
Disciplina	628.1/67
Soggetti	Saline water conversion Saline water conversion plants
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Front cover; Contents; List of Figures; List of Tables; Preface; Acknowledgments; Abbreviations and Acronyms; The Editors; Contributors; Chapter 1. Overview of the Health and Environmental Impacts of Desalination Technology; Chapter 2. Desalination Process Technology; Chapter 3. Chemical Aspects of Desalinated Water; Chapter 4. Sanitary Microbiology of the Production and Distribution of Desalinated Drinking Water; Chapter 5. Monitoring, Surveillance, and Regulation; Chapter 6. Environmental Impact Assessment of Desalination Projects; Back cover
Sommario/riassunto	Desalination Technology: Health and Environmental Impacts covers the latest developments in desalination, examining the environmental and public health-related impacts of these technologies. Written by international experts, the text presents specifications for assessing water quality, technical issues associated with desalination technologies, and the chemical aspects of desalinated water and its microbiology. The book also discusses environmental protection issues that assist in the optimization of proposed and existing desalination facilities to ensure that nation
