Sommario/riassunto

Learning and performing profoundly affect our results and actions. Yet getting the balance right is a challenge to individuals and organisations. While performing is about meeting the demands placed upon us, learning expands our capacity to meet future demands. Everyday successes and failures are shaped by the way we balance learning and performing. More than just actions, balance involves a set of values that are fundamental to the successful operation of organisations. These values are key dimensions around which organisational cultures form. Unfortunately, achieving balance is like a dance
