Sommario/riassunto	The idea that sugar, plantations, slavery, and capitalism were all present at the birth of the Atlantic world has long dominated scholarly thinking. In nine original essays by a multinational group of top scholars, Tropical Babylons re-evaluates this so-called "sugar revolution." The most comprehensive comparative study to date of early Atlantic sugar economies, this collection presents a revisionist examination of the origins of society and economy in the Atlantic world. Focusing on areas colonized by Spain and Portugal (before the emergence of the Caribbean sugar colonies of
