

1. Record Nr.	UNINA9910822832803321
Autore	Olsen Steven
Titolo	Obesity in the early childhood years : state of the science and implementation of promising solutions - workshop summary // Steve Olson, rapporteur
Pubbl/distr/stampa	Washington, District of Columbia : , : The National Academies Press, , 2016 ©2016
ISBN	0-309-43924-8 0-309-43922-1
Descrizione fisica	1 online resource (115 pages)
Disciplina	618.92398
Soggetti	Obesity in children - Prevention United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Introduction and overview -- The state of the science -- Modifiable risks and protective factors associated with overweight and obesity through age 5 -- Effective interventions: what works? -- Promising and innovative cross-sector solutions -- Closing comments -- References -- Appendix A: Workshop agenda -- Appendix B: Acronyms and abbreviations -- Appendix C: Speaker and moderator biographies.
Sommario/riassunto	"Among the many troubling aspects of the rising prevalence of obesity in the United States and elsewhere in recent years, the growth of early childhood overweight and obesity stands out. To explore what is known about effective and innovative interventions to counter obesity in young children, the National Academies of Sciences, Engineering, and Medicine's Roundtable on Obesity Solutions held a workshop in October 2015. The workshop brought together many of the leading researchers on obesity in young children to describe the state of the science and potential solutions based on that research. Participants explored sustainable collaborations and new insights into the implementation of interventions and policies, particularly those related to nutrition and physical activity, for the treatment and prevention of obesity in young children. Obesity in the Early Childhood Years summarizes the

presentations and discussions from the workshop"--Publisher's  
description.
