

1. Record Nr.	UNINA9910822849203321
Titolo	Haschek and Rousseaux's handbook of toxicologic pathology // edited by Wanda M. Haschek, Colin G. Rousseaux, Matthew A. Wallig ; associate editors, Brad Bolon, Ricardo Ochoa ; Beth W. Mahler (illustrations editor)
Pubbl/distr/stampa	Amsterdam ; ; Boston, : Elsevier/AP, 2013 Amsterdam ; ; Boston : , : Academic Press, , 2013
ISBN	0-12-415765-3
Edizione	[3rd ed.]
Descrizione fisica	1 online resource (3 volumes (xxxvi, 2963 pages)) : illustrations (some color)
Collana	Gale eBooks
Disciplina	615.9
Soggetti	Toxicology Physiology, Pathological Veterinary toxicology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	v. 1. Practice of toxicologic pathology -- v. 2. Safety assessment including current and emerging issues in toxicologic pathology -- v. 3. Systems toxicologic pathology.
Sommario/riassunto	Haschek and Rousseaux's Handbook of Toxicologic Pathology is a key reference on the integration of structure and functional changes in tissues associated with the response to pharmaceuticals, chemicals and biologics. The 3e has been expanded by a full volume, and covers aspects of safety assessment not discussed in the 2e. Completely revised with many new chapters, it remains the most authoritative reference on toxicologic pathology for scientists and researchers studying and making decisions on drugs, biologics, medical devices and other chemicals, including agrochemicals and environment
