Nota di contenuto	Symbolism and regime change -- Dissolution of the Soviet metanarrative -- The leader's vision -- The symbolism of the political arena -- Russian identity in the public arena -- Moscow : a material basis for post-Soviet identity?
Sommario/riassunto	During the Soviet period, political symbolism developed into a coherent narrative that underpinned Soviet political development. Following the collapse of the Soviet regime and its widespread rejection by the Russian people, a new form of narrative was needed, one which both explained the state of existing society and gave a sense of its direction. By examining the imagery contained in presidential addresses, the political system, the public sphere and the urban development of Moscow, Graeme Gill shows how no single coherent symbolic programme has emerged to replace that of the Soviet period. Laying particular emphasis on the Soviet legacy, and especially on the figure of Stalin, Symbolism and Regime Change in Russia explains why it has been so difficult to generate a new set of symbols which could constitute a coherent narrative for the new Russia.

Pubbl/distr/stampa	Basel, Switzerland, : MDPI - Multidisciplinary Digital Publishing Institute, 2021
Descrizione fisica	1 online resource (214 p.)
Soggetti	Biology, life sciences Research and information: general Technology, Engineering, Agriculture, Industrial processes
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This Special Issue presents a range of recent technologies and innovations to help the agricultural and food industry to manage and minimize postharvest losses, enhance reliability and sustainability, and generate high-quality products that are both healthy and appealing to consumers. It focuses on three main topics of food storage and preservation technologies, food processing technologies, and the applications of advanced mathematical modelling and computer simulations. This presentation of the latest research and information is particularly useful for people who are working in or associated with the fields of agriculture, the agri-food chain and technology development and promotion.
