

1. Record Nr.	UNINA9910822914603321
Autore	Hollander Justin B
Titolo	Principles of brownfield regeneration : cleanup, design, and reuse of derelict land // Justin B. Hollander, Niall G. Kirkwood, and Julia L. Gold
Pubbl/distr/stampa	Washington, : Island Press, c2010
ISBN	1-59726-990-5
Edizione	[1st ed.]
Descrizione fisica	1 online resource (148 p.)
Altri autori (Persone)	GoldJulia L KirkwoodNiall
Disciplina	307.3/4160973
Soggetti	Brownfields Cities and towns - United States - Growth City planning - United States Urban renewal - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Intro -- Title Page -- Copyright Page -- Table of Contents -- Acknowledgments -- Chapter 1: Introduction -- Chapter 2: Approaching Brownfield Redevelopment -- Chapter 3: Remediation -- Chapter 4: Land Use and Design Considerations -- Chapter 5: Case Studies -- The Steel Yard, Providence, Rhode Island -- Assunpink Greenway, Trenton, New Jersey -- June Key Community Center Demonstration Project, Portland, Oregon -- Eastern Manufacturing Facility, Brewer, Maine -- The Watershed at Hillsdale, Portland, Oregon -- Additional Resources -- Notes -- Index.
Sommario/riassunto	The U.S. EPA defines brownfields as "idle real property, the development or improvement of which is impaired by real or perceived contamination." The authors of Principles of Brownfield Regeneration argue that, compared to "greenfields"-farmland, forest, or pasturelands that have never been developed-brownfields offer a more sustainable land development choice. They believe that brownfields are central to a sustainable strategy of thwarting sprawl, preserving or regenerating open space, reducing greenhouse gas emissions, and reinvesting in urbanized areas. Drawing on interviews with people involved in brownfield projects as well as on their own considerable expertise, the

authors use five case studies to describe the steps for cleaning up a site and creating viable land for development or open space.
