Sommario/riassunto

With images of Jennifer Lopez's butt and America Ferrera's smile saturating national and global culture, Latina bodies have become an ubiquitous presence. *Dangerous Curves* traces the visibility of the Latina body in the media and popular culture by analyzing a broad range of popular media including news, media gossip, movies, television news, and online audience discussions. Isabel Molina-Guzmán maps the ways in which the Latina body is gendered, sexualized, and racialized within the United States media using a series of fascinating case studies. The book examines tabloid headlines about Jennifer Lopez's indomitable sexuality, the contested authenticity of Salma Hayek's portrayal of Frida Kahlo in the movie *Frida*, and America Ferrera's universally appealing yet racially sublimated *Ugly Betty* character. *Dangerous Curves* carves out a mediated terrain where these racially ambiguous but ethnically marked feminine bodies sell everything from haute couture to tabloids. Through a careful examination of the cultural tensions embedded in the visibility of Latina bodies in United States media culture, Molina-Guzmán paints a nuanced portrait of the media's role in shaping public knowledge about Latina identity and Latinidad, and the ways political and social forces shape media representations.
