Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record. EBL Purchase. Non-linear Access.
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	"School-aged children (grades K-12) are often faced with personal problems that can hinder their ability to succeed in the school environment. This Treatment Planner focuses on school-related problems such as study and organizational skill deficits and academic motivation/underachievement, as well as "outside" issues such as blended families, divorce, substance abuse, teen pregnancy, and parenting skill deficits. This new edition features empirically supported, evidence-based treatment interventions including coverage of disruptive classroom behaviors, reinforcing student success, bullying, peer conflict, and school violence and includes DSM-IV-TR, DSM-5, ICD-9, and ICD-10 diagnostic codes"--
