Titolo	Adaptive systems in control and signal processing 1995 : a postscript volume from the 5th IFAC Symposium, Budapest, Hungary, 14-16 June 1995 // edited by Cs. Banyasz
Pubbl/distr/stampa	Oxford, England : , : Pergamon, , 1995 ©1995
ISBN	1-4832-9689-X
Edizione	[First edition.]
Descrizione fisica	1 online resource (491 p.)
Collana	IFAC Postprint Volume
Disciplina	629.8/36 629.836
Soggetti	Adaptive control systems Adaptive signal processing
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"5th IFAC Symposium on Adaptive Systems in Control and Signal Processing 1995." "Published for the International Federation of Automatic Control."
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.

Sommario/riassunto

Leading academic and industrial researchers working with adaptive systems and signal processing have been given the opportunity to exchange ideas, concepts and solutions at the IFAC Symposia on Adaptive Systems in Control and Signal Processing. This postprint volume contains all those papers which were presented at the 5th IFAC Symposium in Budapest in 1995. The technical program was composed of a number of invited and contributed sessions and a special case study session, providing a good balance between applications and theory oriented papers.
