The Code of Ethics

Sommario/riassunto

Suitable for both students and practicing pharmacists, the latest edition of this classic textbook provides comprehensive coverage of an essential component of the U.K. pharmacy curriculum: pharmacy law and ethics. Completely rewritten since the last edition to reflect the rapid pace at which this field moves, it offers a clear, readable and non-technical guide on balancing the needs of patients with the letter of the law. It explains what happens and why in a reader-friendly format, taking a problem solving approach, and even provides an introduction to pharmacy issues for solicitors and lega
