

1. Record Nr.	UNINA9910823078803321
Titolo	Dynamics in human and primate societies : agent-based modeling of social and spatial processes // editors, Timothy A. Kohler, George J. Gumerman
Pubbl/distr/stampa	New York, : Oxford University Press, 2000
ISBN	0-19-756149-7 1-280-83327-0 0-19-535119-3
Edizione	[1st ed.]
Descrizione fisica	1 online resource (413 p.)
Collana	Santa Fe Institute studies in the sciences of complexity
Altri autori (Persone)	KohlerTimothy A <1949-> (Timothy Alan) GumermanGeorge J
Disciplina	301.0113 303.4/01/13
Soggetti	Social evolution - Mathematical models Social evolution - Computer simulation Social history - To 500 - Mathematical models Social history - To 500 - Computer simulation Animal societies - Mathematical models Animal societies - Computer simulation Social behavior in animals - Mathematical models Social behavior in animals - Computer simulation Social history To 500 Mathematical models
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Previously issued in print: 2000.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; Preface; Putting Social Sciences Together Again: An Introduction to the Volume; Nonlinear and Synthetic Models for Primate Societies; The Evolution of Cooperation in an Ecological Context: An Agent-Based Model; Evolution of Inference; Trajectories to Complexity in Artificial Societies: Rationality, Belief, and Emotions; MAGICAL Computer Simulation of Mesolithic Foraging; Be There Then: A Modeling Approach to Settlement Determinants and Spatial Efficiency Among Late Ancestral Pueblo Populations of the Mesa Verde Region, U. S. Southwest

Understanding Anasazi Culture Change Through Agent-Based Modeling; Anti-Chaos, Common Property, and the Emergence of Cooperation; The Political Impact of Marriage in a Virtual Polynesian Society; The Impact of Raiding on Settlement Patterns in the Northern Valley of Oaxaca: An Approach Using Decision Trees; The Fractal House of Pharaoh: Ancient Egypt as a Complex Adaptive System, a Trial Formulation; Modeling Sociality: The View from Europe; Agent-Based Modeling of Small-Scale Societies: State of the Art and Future Prospects; Index

---

Sommario/riassunto

'Dynamics of Human and Primate Societies' presents the most up-to-date research in the study of human and primate societies, demonstrating recent advances in software and algorithms for modelling societies. It also addresses case studies that have applied agent-based modelling approaches in archaeology, cultural anthropology, primatology and sociology.
