

1. Record Nr.	UNINA9910823378303321
Autore	Shunmugaperumal Tamilvanan
Titolo	Oil-in-water nanosized emulsions for drug delivery and targeting // Tamilvanan Shunmugaperumal
Pubbl/distr/stampa	Hoboken, New Jersey : , : Wiley, , [2021] ©2021
ISBN	1-119-58525-2 1-119-58532-5 1-119-58527-9
Descrizione fisica	1 online resource (465 pages)
Disciplina	615.6
Soggetti	Drug delivery systems Emulsions Oils and fats - Solubility Nanoparticle Drug Delivery System Nanoparticles
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	"Among the different nanoparticulate systems that have been proposed for drug delivery and drug targeting purposes, oil-in-water nanosized emulsions having either positive (cationic) or negative (anionic) charges are being emerged as successful systems to manufacture through?not only in a laboratory level, but also on an industrial scale. This book combines knowledge on emulsion, microemulsion, and nanoemulsion into one comprehensive volume, making it an ideal resource for researchers, professionals, and students. It provides an overview of the emulsion preparation methods and characterization techniques via different sophisticated analytical instruments, and it covers clinical implications through various case studies/examples. Regulatory view on nanosized emulsions are discussed comprehensively in this book"--
