Sommario/riassunto

Edward W. Said (1935-2003) ranks as one of the most preeminent public intellectuals of our time. Through his literary criticism, his advocacy for the Palestinian cause, and his groundbreaking book *Orientalism*, Said elegantly enriched public discourse by unsettling the status quo. This indispensable volume, the most comprehensive and wide-ranging resource on Edward Said's life and work, spans his broad legacy both within and beyond the academy. The book brings together contributions from thirty-one luminaries-leading scholars, critics, writers, and activists-to engage Said's provocative ideas. Their essays and interviews explore the key themes of emancipation and representation through the prisms of postcolonial theory, literature, music, philosophy, and cultural studies.
