Sommario/riassunto	Most of businesses fall within the category of start-up, small and medium size enterprises. Therefore, governments in part of their quest to reform the economy and related regulatory management systems as well as the entrepreneurship support ecosystem. This was done with a view to securing the national governance empowerment deemed necessary for the economic and political fostering, adaptation, growth and progress of this sector. These endeavors serve as an essential part

of the economic reform needed to generally guide the economy to a balanced and sustained growth vision. This vision aims specifically at achieving a balanced and diversified skill-based economy that is ultimately dependent on knowledge, innovation and competitiveness. This obviously arises from the ventures of entrepreneurs, startups as well as small and medium size enterprises (SMEs). In this context, this book tries to support the elaboration and implementation of strategies and to foster SMEs and entrepreneurship development. This will include contribution to set a guide to illustrate the scientific way for the identification of stakeholders and dialogue platforms as well as the institutionalization of the processes and systems required to improve the regulatory framework for SME development.
