

1. Record Nr.	UNINA9910823502703321
Autore	Kato Takashi
Titolo	Electron-phonon interactions in novel nanoelectronics [[electronic resource] /] / Takashi Kato
Pubbl/distr/stampa	New York, : Nova Science, c2009
ISBN	1-61728-391-6
Edizione	[1st ed.]
Descrizione fisica	1 online resource (97 p.)
Soggetti	Electron-phonon interactions Nanoelectronics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"Novinka."--Cover.
Nota di bibliografia	Includes bibliographical references (p. [79]-84) and index.
Nota di contenuto	Intro -- ELECTRON-PHONONINTERACTIONS IN NOVELNANOELECTRONICS -- CONTENTS -- PREFACE -- INTRODUCTION -- THEORETICAL BACKGROUND -- A. Vibronic Interactions between the Twofold DegenerateFrontier Orbitals and the E2g Vibrational Modes InBenzene -- B. Vibronic Interactions between the Twofold DegenerateFrontier Orbitals and the A1g Vibrational Modes inBenzene -- C. Vibronic Interactions between the NondegenerateFrontier Orbitals and the Ag Vibrational Modes inPolyacenes -- D. Vibronic Interactions in Polyfluoroacenes, B, NSubstitutedPolyacenes, and Polycyanodienes -- ELECTRON-PHONON COUPLING CONSTANTSFOR THE CHARGED ELECTRONIC STATESOF POLYACENES, POLYFLUOROACENES, B,N-SUBSTITUTED POLYACENES, ANDPOLYCYANODIENES -- A. Twofold Degenerate Electronic States of TheMonocations of Monoanions of Benzene,Hexafluorobenzene, and Borazine -- B. Nondegenerate Electronic Systems of Polyacenes, Polyfluoroacenes, B, N-Substituted Polyacenes, andPolycyanodienes -- OPTIMIZED STRUCTURES -- A. Benzene and Polyacenes -- B. Polyfluoroacenes -- C. B, N-Substituted Polyacenes -- D. Polycyanodienes -- C. B, N-Substituted Polyacenes -- D. Polycyanodienes -- ELECTRON-PHONON COUPLING CONSTANTS -- A. The Monocations and Monoanions of Benzene andPolyacenes -- B. Polyfluoroacenes -- 1. Monocations -- 2. Monoanions -- C. B, N-Substituted Polyacenes -- 1. Monocations -- 2. Monoanions -- D.

Polycyanodienes -- 1. Monocations -- 2. Monoanions -- E. Summary  
-- TOTAL ELECTRON-PHONON COUPLINGCONSTANTS -- A. Polyacenes  
and Polyfluoroacenes -- 1. Monocations -- 2. Monoanions -- B. B, N-  
Substituted Polyacenes -- C. Polycyanodienes -- 1. Monocations -- 2.  
Monoanions -- D. Summary -- THE LOGARITHMICALLY AVERAGED  
PHONONFREQUENCIES -- A. Polyacenes and Polyfluoroacenes -- 1.  
Monocations -- 2. Monoanions -- B. B, N-Substituted Polyacenes -- C.  
Polycyanodienes -- D. Summary -- CONCLUDING REMARKS.  
ACKNOWLEDGMENT -- REFERENCES -- INDEX.
