

1. Record Nr.	UNINA9910823525003321
Autore	lencean Stefan Mircea
Titolo	Intracranial hypertension [[electronic resource] /] / Stefan Mircea lencean and Alexandru Vladimir Ciurea
Pubbl/distr/stampa	New York, : Nova Biomedical Books, c2009
ISBN	1-60876-549-0
Edizione	[1st ed.]
Descrizione fisica	1 online resource (263 p.)
Collana	Neurology--laboratory and clinical research development series
Altri autori (Persone)	CiureaA. V
Disciplina	616.1/32
Soggetti	Intracranial hypertension Hypertension
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	<p>""Intracranial Hypertension""; ""Contents""; ""Preface""; ""Intracranial Hyptertension Genberal Approach""; ""General Approach and Short History""; ""Classification of Intracranial Hypertension""; ""References""; ""Introduction to Anatomy and Physiology""; ""The Cranio-Spinal Space""; ""Nervous Parenchyma""; ""The Ventricular System""; ""Brain Blood Barrier""; ""The Cerebrospinal Fluid""; ""Dynamics of Intracranial Fluids""; ""References""; ""Intracranial Pressure""; ""General Considerations""; ""Intracranial Pressure Relationships""; ""Intracranial Pressure Waves""</p> <p>""Intracranial Pressure Increase""""Compensating Mechanisms""; ""Intracranial Pressure Measurement""; ""References""; ""Pathogenesis of Intracranial Hypertension""; ""General Data""; ""Modifications of the Cerebral Parenchyma""; ""Alteration of Cerebrospinal Fluid""; ""Cerebrovascular Reactivity""; ""Decompensation of Intracranial Hypertension""; ""References""; ""Clinical Presentation of Intracranial Hypertension""; ""Signs and Symptoms""; ""ICH Syndrome in Infants and Young Children""; ""ICH Syndrome in Old People""; ""References""; ""Decompensation of Intracranial Hypertension""</p> <p>""General Data""""Consciousness Disorders and Coma""; ""Focal Neurological Deficit""; ""Cranial Nerve Paralysis""; ""Vegetative Disorders""; ""Decompensated Intracranial Hypertension""; ""References""; ""Paraclinical Explorations""; ""General Data""; ""The Ophthalmologic Examination""; ""Skull X-Ray""; ""CT Scan""; ""Magnetic</p>
