   Sommario/riassunto   With unique access to Chinese leaders at all levels of the party and
                        government, best-selling author David M. Lampton tells the story of
                        China's political elites from their own perspectives. Based on over five
                        hundred interviews, Following the Leader offers a rare glimpse into how
                        the attitudes and ideas of those at the top have evolved over the past
                        four decades. Here China's rulers explain their strategies and ideas for
                        moving the nation forward, share their reflections on matters of
                        leadership and policy, and discuss the challenges that keep them awake
                        at night. As the Chinese Communist Party installs its new president, Xi
                        Jinping, for a presumably ten-year term, questions abound. How will
                        the country move forward as its explosive rate of economic growth
                        begins to slow? How does it plan to deal with domestic and
                        international calls for political reform and to cope with an aging
                        population, not to mention an increasingly fragmented bureaucracy and
                        society? In this insightful book we learn how China's leaders see the
