Sommario/riassunto	""Luring readers in...with meticulously woven clinical vignettes, Holtz masterfully presents the mechanics and the art of neuropsychology.... students will appreciate the historical roots of neuropsychology, [and] will understand the multiplex systems of current neuropsychological approaches..."" . -Nancy S. Koven, PhD. Bates College. ""...there has not been an available text focusing on the application of the basic principles in clinical neuropsychological practice....Finally, a text is available to remedy this problem."" . -Dennis Andersen, MS, LMHC. Eastern Washington University. ""A valuable
